INDUCTION INNOVATIONS

IDIMDV-777-FORD

Mini-Ductor Venom Ford Kit

- The Mini-Ductor Venom with the specially designed 1/2" coil (MD99-606) aid in the removal of Ford 6.7L EGR Tubes.
- Coil Twist Lock™: coils now lock down with one simple turn (no more thumb screws) and Venom works with all Mini-Ductor coils
- Angled Design with Trigger: Venom's lightweight, ergonomic design allows for induction heat to access hard to reach places more easily
- LED Usage Indicator: a Red LED will light under fault conditions and Green LED lights while the trigger is active and the tool is heating properly
- User Controlled LED Switch: as long as the tool is powered and the internal power supply is operating, the LED will remain lit when the switch is on

PLEASE NOTE: All prices are subject to change at any time without notice. Due to recent Tariff changes by the U.S. Government, it may be necessary to implement a Force Majeure pricing event on certain products. This advertisement was prepared in advance, therefore, merchandise availability could be limited and is subject to the delivery schedule of the manufacturers. Advertised items may not be stocked by all locations. We are not responsible for typographical, pictorial, or pricing errors.

Products advertised within this publication may contain chemicals known to the State of California under Proposition 65 ("P65") to cause cancer, birth defects or other reproductive harm. Many products are noted with a P65 WARNING; however, the warnings may not apply to all items. Further, as this is a new regulation and all vendors may not have yet identified their products as subject to P65, all items that need a warning may not be noted. Contact the manufacturer for specific details regarding P65. We appreciate your understanding as we navigate these new requirements.

CAUTION: Always wear appropriate safety equipment and observe safety advice and proper use of equipment as instructed in warning and caution labels and operating instructions.
